

M-46 Road Repairs

West Village Limit of Merrill to M-52

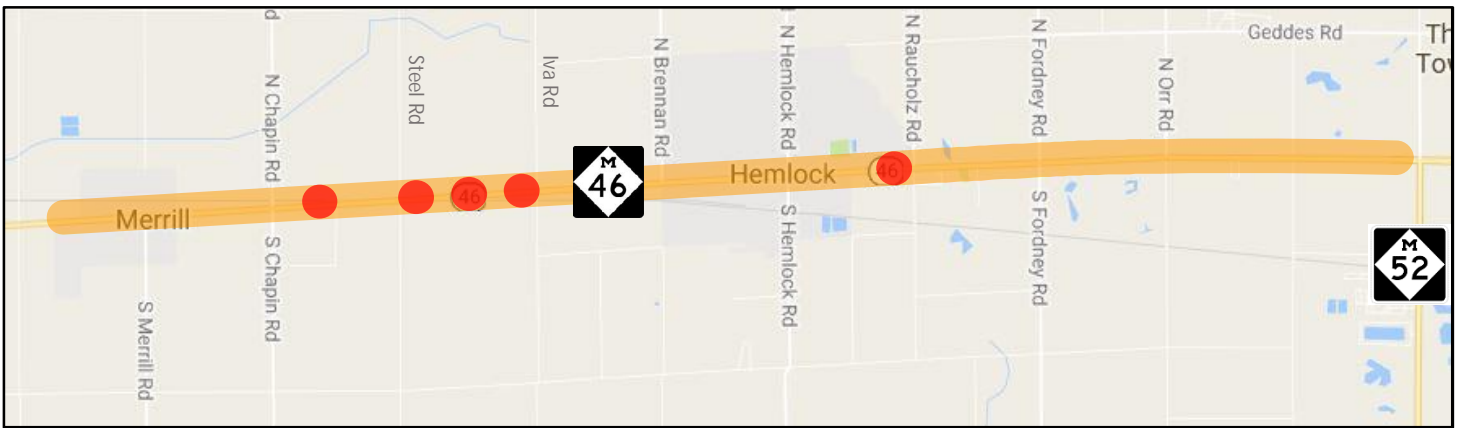

What is Being Done?

In 2018, road repairs and drainage improvements will take place along 10.4 miles of M-46 between the west limits of Merrill and M-52.

Repair work will consist of milling, pavement repairs and 2-course asphalt resurfacing along with intersection improvements, driveway adjustments, drainage improvements, tree removals, sign replacement, and sidewalk ramp upgrading.

As part of the drainage improvements, cross culvert replacement will take place at the following locations:

- Plank Rd #6 Drain crossing east of Chapin Rd
- Whitmore Drain crossing east of Steel Rd
- Munholland Drain crossing between Steel Rd and Iva Rd
- Rabbillard Drain crossing just west of Iva Rd
- Upper McClellan Drain crossing just west of Raucholz Rd

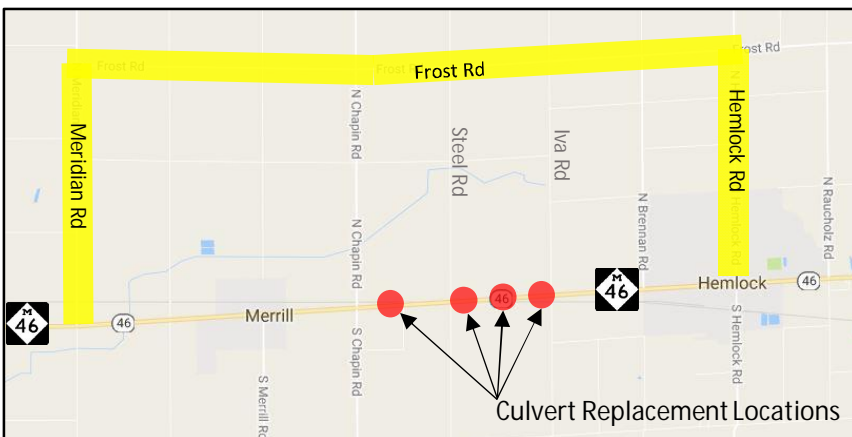

Road Work Limits

Cross Culvert Replacement Locations

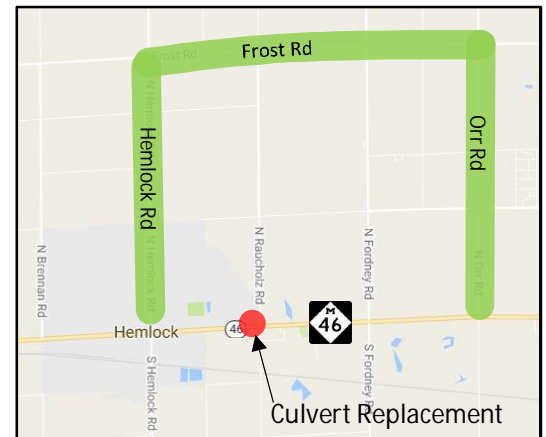

How will Traffic Be Affected?

Detours will be required for cross culvert replacement work. During culvert replacements between Chapin Rd and Iva Rd, M-46 traffic will be detoured along Meridian Rd, Frost Rd, and Hemlock Rd. During replacement of the Upper McClellan Drain culvert crossing near Raucholz Rd, M-46 traffic will be detoured along Hemlock Rd, Frost Rd, and Orr Rd. Simultaneous work on culverts will be restricted in order to maintain local traffic access to residences and businesses at all times.

Shoulder closures and daytime lane closures with flag control will be used to complete pavement repairs, asphalt resurfacing and other project work while maintaining M-46 traffic.
